Subject: Doherty update at 1700

OSC Paul Doherty called Spill Line to give an update to the situation as of 1600 hrs. this afternoon. Doherty stated that a meeting was held today at 1600 hrs. with city officials, fire department, the responsible party, KDHE, OSHA, and the DOT pipeline safety.

City fire department was able to knock down much of the visible cloud with fog spray by 9 AM this morning.

Local evacuation orders were lifted around 10 AM this morning.

Only minor detections of Corine near the area of product transfer on site. No offsite the Texans of Corine at this time.

And some for o'clock this afternoon, it was reported that 74 persons were treated at local hospitals. It was reported that most if not all have been treated and released. It was reported that one individual an employee of MGP, is still being treated in the intensive care unit.

The city is working to distribute health information to the public with the support of KDHE and ATSTR toxicologist.

CT EH toxicologist (contracted by the RP) are on site and preparing to set up a 24 hour hotline to support health information to the public.

The EPA criminal investigation division was on site this afternoon meeting with MGP officials.
